(805) INFORMACIÓN GRABADA DE KI

VOUCHER FOR POTASSIUM IODIDE (KI) FOR GENERAL POPULATION

BY SUBMITTING THIS VOUCHER TO RECEIVE POTASSIUM IODIDE TABLETS, I UNDERSTAND THE FOLLOWING:

- 1) The use of KI is voluntary; I am not required to accept it or use it.
- 2) KI is NOT a substitute for evacuation or sheltering in place, which are the most effective protective actions in the event of a radiological emergency.
- 3) KI protects only the thyroid gland from only radioactive iodine. In a radiological release, I would be vulnerable to possible exposure to other potentially dangerous forms of radiation.
- 4) I assume full responsibility for using KI.
- 5) If I use this voucher I will receive two doses for each person for whom it is requested.
- 6) In the event of an emergency at Diablo Canyon Power Plant, KI will NOT be made available to the public at the pre-distribution locations, the evacuee reception or the congregate care centers.
- 7) I will follow the Directions for Use on the ThyroSafe consumer package insert that will accompany my supply of potassium iodide.

POTASSIUM IODIDE (KI) PRE-DISTRIBUTION LOCATIONS:

The Medicine Shoppe

1199 Los Valley Road, Los Osos

Best Care Pharmacy

1590 West Grand Avenue, Grover Beach

Dana's Health Plus

948-A Foothill Boulevard, San Luis Obispo

ACERCA DEL YODO DE POTASIO

CUPÓN PARA YODO DE POTASIO (KI) PARA LA POBLACIÓN GENERAL

MEDIANTE LA PRESENTACIÓN DE ÉSTE CUPÓN PARA RECIBIR TABLETAS DE YODO DE POTASIO, ENTIENDO LO SIGUIENTE:

- 1) El uso de KI es voluntario, no se requiere que yo lo acepte o use.
- 2) KI no es un substituto para la evacuación o para refugiarse en sitio, las cuales son las medidas de protección más eficaces en caso de una emergencia radiológica.
- 3) KI protege únicamente la glándula de tiroides solamente del yodo radioactivo. Durante una liberación radiológica, yo sería vulnerable a una posible exposición a otras formas de radiación potencialmente peligrosa.
- 4) Asumo toda la responsabilidad por usar KI.
- 5) Si uso éste cupón, recibiré dos dosis por cada persona para quien se haya pedido.
- 6) En caso de una emergencia en la Planta de Energía de Diablo Canyon, KI no estará disponible para el público en los sitios de pre-distribución, recepción de evacuados o centros de cuidado de congregación.
- 7) Seguiré las Instrucciones de Uso del folleto del empaque para el consumidor del ThryoSafe que acompañará mi provisión de yoduro de potasio.

SITIOS DE PRE-DISTRIBUCIÓN DE YODO DE POTASIO (KI):

The Medicine Shoppe

1199 Los Valley Road, Los Osos

Best Care Pharmacy

1590 West Grand Avenue, Grover Beach

Dana's Health Plus

948-A Foothill Boulevard, San Luis Obispo

San Luis Obispo County Public Health Departments:

Morro Bay: 760 Morro Bay Boulevard

Grover Beach: 286 South 16th Street

San Luis Obispo: 2191 Johnson Avenue

Este cupón del Condado de San Luis Obispo es para la pre-distribución gratuita de tabletas KI. Este es un programa voluntario para ellos quienes trabajen o residan en la Zona de Planificación de Emergencia (EPZ). Para más información acerca de la radiación o de KI, favor de referirse a la páginas A-38,39 de éste the 2009 SLO AT&T libro telefónico.

Health Officer/Public Health Administrator

August 3, 2009

Dear Community Member,

In February 2003 the State of California made available a two-day supply of potassium iodide (KI) to those in our county who wanted it as a supplemental protective measure in the event of a nuclear power plant emergency. Potassium iodide is also known by its chemical name of "KI" and the KI tablets that were distributed in 2003 will be expiring.

Should a nuclear power plant emergency occur that involves a release of radiation, local and state officials may ask citizens to evacuate or shelter-in-place as the primary public safety measure. KI tablets are a supplemental protective measure.

KI protects the thyroid gland against exposure to radioactive iodine in the unlikely event of a radiation release from a nuclear power plant emergency. If taken in an appropriate and timely dosage, KI can block exposure of the thyroid gland to radioactive iodide. However, KI does not protect other parts of the body from exposure to other contaminants released during the emergency.

The San Luis Obispo County Public Health Department is making available a two-day supply of the KI tablets for each person who resides or works in the Emergency Planning Zone (EPZ) for the Diablo Canyon Power Plant. Enclosed you will find a voucher for tablets of KI. To receive your KI, fill out the voucher and take it to one of the potassium iodide pre-distribution locations listed on the voucher.

Participation in the pre-distribution program is voluntary. If you reside or work in the EPZ, you may choose to receive a two-day supply. If responding on behalf of a household or a business, you may receive two doses for each person in your household or two doses for each of your business employees. KI should only be taken after specific instruction by a local or state public health official. In the event of an emergency at Diablo Canyon Power Plant, KI will not be made available to the public at the pre-distribution locations, evacuee reception centers or the congregate care centers.

If you choose to participate in this program, a KI FACT sheet, complete directions for KI use and dosage amounts for adults and children will be provided with your supply of KI. For your convenience, a recorded KI information line has been established and will be available until October 1, 2010 to answer questions you may have about the program. Please call (805) 788-2903.

Information about potassium iodide and emergency preparedness is also available in the San Luis Obispo County AT&T telephone book in the Customer Guide section beginning on page A31 and on the following websites:

San Luis Obispo County Public Health Department: <http://www.slocounty.ca.gov/health>
San Luis Obispo County Office of Emergency Services: <http://www.slocounty.ca.gov/oes>

Sincerely,

Penny Borenstein, MD

San Luis Obispo County Health Officer

VOUCHER FOR POTASSIUM IODIDE (KI) FOR GENERAL POPULATION

The San Luis Obispo County Public Health Department is providing two KI doses in tablet form for residents who live or work within the Emergency Planning Zone (EPZ). Residents may use this voucher to obtain KI from authorized locations. Individuals who receive KI will be provided with copies of the KI manufacturer package insert or similar prepared information and instructions.

One voucher per household, facility or business. Recipients must be 18 years or older and present a completed voucher in order to claim the product. Pre-distribution locations are listed on the back of this voucher.

PLEASE COMPLETE THE FOLLOWING INFORMATION: POSTAL ZIP CODE: _____

AGE AND WEIGHT RANGE	NUMBER OF INDIVIDUALS
Adults over 18 years	_____
Children 12-18 years who weigh at least 150 lbs.	_____
Children to 18 years who weigh less than 150 lbs.	_____

(Official Use Only) Number of boxes distributed _____

KI SHOULD ONLY BE TAKEN AFTER SPECIFIC INSTRUCTION BY A LOCAL OR STATE PUBLIC HEALTH OFFICIAL.

See additional information in the 2009 AT&T phone book page A38 or on the following websites:

- San Luis Obispo County Public Health Department: <http://www.slocounty.ca.gov/health>
- San Luis Obispo County Office of Emergency Services: <http://www.slocounty.ca.gov/oes>

CUPÓN PARA YODURO DE POTASIO (KI) PARA LA POBLACIÓN GENERAL

El Departamento de Salud del Condado de San Luis Obispo está proporcionando dos dosis de KI en forma de tabletas para los residentes quienes viven y/o trabajan dentro de la Zona de Planificación de Emergencia (EPZ). Los residentes pueden usar este cupón para obtener KI de sitios autorizados. A los individuos quienes reciban KI, se les proporcionarán copias del folleto de empaque del fabricante o información e instrucciones preparadas similares.

FAVOR DE LLENAR LA SIGUIENTE INFORMACIÓN:	ZONA POSTAL: _____
EDAD Y RANGO DE PESO	NÚMERO DE INDIVIDUOS
